How to find the perfect house ball—Stick to the 10-percent guideline. A bowling ball should weigh 10 percent of your body weight (up to 16 pounds), which means you really shouldn't be grabbing, say, an 8-pound ball if you weigh 150 pounds. You want some weight to the ball, but it shouldn't be so heavy that it's uncomfortable. Make sure the finger holes fit just right, and don't stretch your hand.

Bowling checklist to learn: equipment, starting spot, timing, hand and wrist position, approach, follow-through, ball speed, target on the lane, breakpoint, pin action....didn't know there was so much to bowling huh...now you can learn it all!

Competitive obstacle course has area where two by two teams will go up their side of the obstacle course, weave and bob through the obstacles to climb up to a platform and the only way down is a large slide. Whoever gets their whole team through the course and gathered back down at the bottom wins. Team work is the key here, the better you communicate and work together the better chances you have to win. So fun and a great way to work together to make sure your teammate is the last standing, or at least rolling back into your group from the slide area. Fun and energetic teambuilding activity.

Pueblo Montañó Chainsaw Sculpture Garden

Albuquerque, New Mexico

When life gave this firefighter a forest fire, he made a rough-hewn sculpture park using a chainsaw.

COLLECTOR OF EXPERIENCES (ATLAS OBSOLETE USER)

AFTER A FIRE RAVAGED THE landscape along the Paseo del Bosque trail in Albuquerque, New Mexico, firefighter Mark Chavez did what anyone in his position would do: he picked up his chainsaw and made some art.

The Paseo del Bosque trail is a 16-mile multi-use trail running through the heart of the city, along the forested banks of the Rio Grande. In 2003, teenagers playing with fireworks inadvertently sparked a wildfire that spread to over 250 acres, causing numerous evacuations and untold damage to the lands and trails along the riverfront. Chavez, one of the firefighters who helped to put out the blaze, looked over the charred husks of cottonwood trees that were left and decided to do something about it.

A chainsaw artist in his free time, Chavez went to work sculpting the dead trees into symbols honoring both the natural beauty of the Southwest and the fire itself. Sculptures include an eagle rising from flames, coyotes, beavers, a roadrunner, La Llorona (the “ditch witch” of Mexican folklore), and a firefighter standing upon a slain dragon— “dragon” being fireman slang for an especially bad fire.

The sculpture garden resides in the Pueblo Montañó trailhead of the Paseo del Bosque, surrounded by picnic tables, redeveloping flora, and some of the very same wildlife Chavez carved into the cottonwoods.

Know Before You Go

Sculpture Garden is within the Pueblo Montañó Picnic Area and Trailhead, located just off Montañó Road, east of Coors Boulevard and west of the river. Driveway/parking lot is opposite Winter Haven Rd. Dogs on leash are welcome in the sculpture garden and on the trail. Poop bag stations are also provided.

Little Beaver Town

Albuquerque, New Mexico

An abandoned amusement park based on the popular 1940s Red Ryder comic strip.

A staged gunfight at Little Beaver Town, 1961. ASQ MUSEUM PHOTOARCHIVES [CC BY 2.0]

THE INFAMOUS RED RYDER BB gun from *A Christmas Story* was named for Red Ryder, a cowboy comic strip character of the mid 20th century. The syndicated strip was so popular it even had its own amusement park briefly, but today it couldn't even be called a ghost town.

Fred Harman and Stephen Slesinger invented "America's famous fighting cowboy" in 1938. Thanks to the popularity of Westerns, the strip quickly evolved into a multimedia empire, with comic books, radio, and more than 35 movies and serials, not to mention toys, lunchboxes, and guns.

UNITE INFO

Work with your C3 — Lots more ideas and many other qualifying activities

The Process

Provide C3 with your CC POC Letter—use template provided by your C3

Work with your C3 on activity/event ideas—C3 will train POCs

Make reservations and event plans with the proper activity to set your event plans into motion, order food if applicable, etc.

Provide C3 with your event request and expected participant list via email — they will look it over and make sure that everything is completed and ready to submit to CC for approval and use of funds; It is required for CC/CL to sign the request, showing that they have approved the use of their UNITE funds.

Once C3 has forms in hand they will submit requests to AF Level for approval of event and food if applicable.

AF Level approval will go back to the C3 and C3 will let you know when/if approved to go forth. At that time you will need to make sure that the venue, etc. is hard booked—all payments will come only from the C3.

C3 will do the payments directly to venue — please do not do any payments as there are no avenues for reimbursements, etc.

Enjoy your event! Take pictures.

First work day after your event please fill out provided after action report and email back to C3 with a minimum of 2 –3 pictures of event.

C3 is here to help you...and will make the process as smooth and easy as possible.

Thank you for using UNITE!
